

# PC Zoning Subcommittee

## Meeting Minutes

Wednesday, September 14, 2016  
10:00 a.m. Conference Room B

City of South Haven

Present: PC members Heinig, Fries, Loafman and Stimson. Also present was the zoning administrator.

The meeting was called to order by Chair Heinig. The meeting was held at the request of the DDA director in order to clarify some issues related to the proposed amendments to allow resident parking overnight in city parking lots.

Issues addressed included:

- The need for visitor passes for guests staying with residents in the downtown. It was decided that books of ten (10) temporary passes could be made available for each unit.
- If a building already has private parking available, no additional resident permits will be issued.
- There was also discussion concerning the lack of enforcement now for overnight parking in CBD lots and whether the permitting was necessary. It was concluded that the permits would be necessary as long as the law remained on the books.

Members present also discussed the upcoming master plan project.

Meeting adjourned at 11:20 a.m.

There was no date set for the next subcommittee meeting.

Respectfully submitted,  
Linda Anderson
