Dyckman Avenue Bascule Bridge Rehabilitation

Progress Report – Week 8

The following work was performed during the week of December 1-5, 2014:

- Sandblasting of structural steel on center span
- Excavation of trench across river bottom for placement of submarine electric cables

It is anticipated that the following work items will be completed in the coming weeks:

- Installation of submarine cables
- Placement of grout to fill voids in rip-rap along channel shore
- Placement of grout bags at piers as scour countermeasure
- Structural steel repairs
- Structural steel painting
